Farewell Day On 01/07/2022

The farewell day celebrations in our college, led by Vice Principal G. Eswara Reddy and supported by other staff members, were a memorable event. The juniors bid a heartfelt farewell to the outgoing batch of 2019-2022 students. The program included speeches, cultural performances, and sharing of fond memories. Emotional moments were shared as the juniors expressed gratitude and appreciation for their seniors. The event provided a platform to strengthen the bond between the batches and created a sense of nostalgia and camaraderie..

Alluri Seetharamaraju Jayanthi On 04/07/2022

The Alluri Seetharamaraju Jayanthi celebrations in the college were organized by Y. John Saheb, a lecturer in history. The event was attended by faculty members who addressed the gathering, shedding light on the life and contributions of Alluri Seetharamaraju. The celebration aimed to honor and commemorate the legacy of this great freedom fighter.

World Population Day On 11/07/2022

On World Population Day, our college, under the leadership of Vice Principal G. Eswara Reddy and other staff members, organized a successful event. The program aimed to raise awareness about population-related issues and promote responsible family planning. Various activities, including seminars, discussions, and interactive sessions, were conducted to educate students about the importance of sustainable population growth. The event received positive feedback from participants.

Vaccination Drive On 29/07/2022

A successful vaccination drive was jointly organized by Yerraguntla Municipality and Government Degree College Yerraguntla. Under the supervision of P. Jagannadham, Yerraguntla Municipal Commissioner, and Dr. M. Ravi Kumar, Principal, along with other teaching staff, the event aimed to administer booster doses of the COVID vaccine to students. The drive was carried out by ANMs (Auxiliary Nurse Midwives) who efficiently delivered the vaccinations. Students were educated about the importance of receiving booster shots to enhance immunity against COVID-19. The collaborative effort between the municipality and the college received positive feedback, ensuring a safer and healthier environment for the student community.
